Enterprise Reporting: PowerPlay Toolbar

Help/ Find/ Explain

Help
To access the imbedded help in Cognos, simply click the "?" button. You can also access the Help by clicking the up arrow to the right of the "?" and the Help link.

Find
You can find specific information in a dimension by clicking the Find options. You can search the current report or cube to find specific dimensions or measures in your data. Finding specific items in highly complex and large dimensions can significantly speed up your analysis time.

Explain
The Explain button shows an explanation of the information you are exploring.
