A Better UF: Faculty and Staff Climate Survey

October 27, 2015

Dear Faculty, Adjuncts, Postdocs and Staff:

A campus community that respects and nurtures the individual needs, abilities and potential of all employees is vital to ensuring a welcoming, inclusive work environment here at UF. Creating and maintaining such an exceptional community is one of the aspirational goals developed by the University Task Force on Goal-Setting to help guide us forward for the next five to 10 years, and we wholeheartedly endorse it.

We will need your input to help realize this goal. We hope you will take a few minutes to share your thoughts about what it is like to work at UF. Your feedback will help us identify successful initiatives, uncover challenges facing members of our community, and develop strategic initiatives to build on the successes and address the challenges.

All of your answers will remain confidential, and the results will be reported in group form only: You will not be identifiable as an individual. Your participation is voluntary. This research has been reviewed and approved by the UF Institutional Review Board. Additional information about the project is available on the UF Faculty and Staff Climate Survey section of the Office of the President’s website.

We encourage you to take approximately 20 minutes to answer the questions at https://rankinsurveys2.com/ufl To protect your confidentiality, the survey must be completed in one sitting.
Thank you in advance for your contribution to this vital project and a better UF.

Sincerely,

W. Kent Fuchs  
President  
University of Florida

Ron Anderson  
Chair  
President's Council on Diversity
